PROFILE

Frontend-focused Full Stack Developer with 2+ years shipping real-world web applications. Strong in JavaScript, HTML/CSS, and PHP, with hands-on experience across the full stack – from REST API integrations and query optimisation to analytics dashboards and UI/UX overhauls.

WORK EXPERIENCE

Full Stack Software Engineer

2024 – 2026

Microkeeper – SaaS Payroll & Workforce Management

- Integrated Reckon and Xero Accounting Suite APIs into the core payroll platform.
- Built profile image pipeline (upload, update, delete) for thousands of users via Cloudflare Images API.
- Optimised database queries delivering 10x+ faster load times across key modules.
- Built a configurable real-time analytics dashboard using Chart.js.
- Delivered UI & UX improvements across multiple modules, improving usability and user flow.

PHP - JavaScript - MySQL - Chart.js - Cloudflare API

Web Developer – Contract

2023 – 2024

Brandsmith / Knight Group Furniture

- Contributed to a furniture wholesaler web app alongside another developer – product components, dynamic pricing, and shipping features.
- Built frontend for an admin file storage system and a registration flow with Google Maps API integration.
- UI/UX refinements using React MUI.

C# - .NET - JavaScript - SQL - MudBlazor - React MUI - Tailwind

PROJECTS

Analytics Dashboard

Chart.js - Query Optimisation - Custom Config
